

HPURE PLUTUS ADVANCED SYN COMPRESSOR OIL

Product Description

Advanced Synthetic Compressor oil designed with premium performance, synthetic base comprising polyalphaolefin and alkylated naphthalene technology. It contains a rust and oxidation inhibitor system plus anti-wear additives to provide outstanding oxidation resistance and corrosion protection. High viscosity index and low pour point of the polyalphaolefin base fluid permits application in a wider range of ambient operating temperatures than with conventional lubricants. This product provides long oil life and effective lubrication in severe applications.

This product is recommended for lubrication of reciprocating, rotary screw slide vane air compressors where the air delivery temperatures are greater than 150°C, but it is not recommended for use in breathing air compressors.

Applications / Benefits

- ✓ Good surface properties, rusting and wear protection
- ✓ Excellent thermal stability and outstanding resistance to oxidation
- ✓ Allows up to 8000 hours drain intervals (normal operating temperature)
- ✓ Extended oil service life; minimizes maintenance and downtime

Typical Characteristics

Test Description	Method	Unit				
ISO Viscosity Grade	-	-	32	46	68	100
Density @ 15 °C	ASTM D 4052	kg/L	0.841	0.844	0.847	0.848
Flash Point	ASTM D 92	°C	238	242	254	258
Pour Point	ASTM D 97	°C	-48	-45	-45	-42
Kinematic Viscosity @ 40°C	ASTM D 445	cSt	32.4	45.54	67.92	103.4
Kinematic Viscosity @ 100°C	ASTM D 445	cSt	5.94	7.614	10.67	14.79
Viscosity Index	ASTM D 2270	-	130	134	146	149
